

MUHAMAD DEJA ALWI DZULHIAN

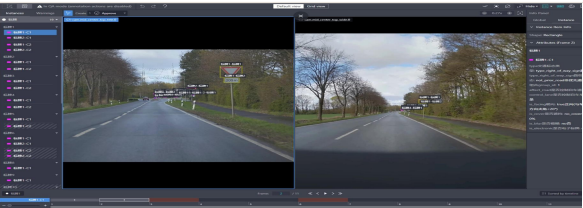

Data Annotator · KUPU ID · XIAOMI Autonomous Driving

4+	400+	15	3	KUPU	Apr 2026
Month Experience	Data pts/day	Min Tasks/day	Anno Types	Employer	Start Date
	40 tasks × 10 data	Per annotator	2D · 3D · 4D	XIAOMI AD Project	Permanent Role

02D BOUNDING BOX

2Traffic Sign Detection

Dual-camera · 11 frames/seq · Attribute labeling · Multi-instance tracking

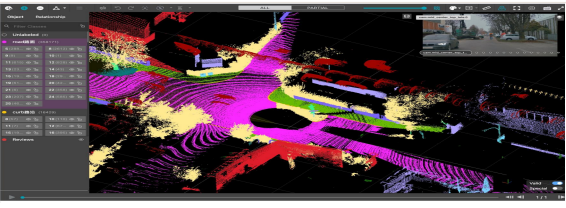

20+ data/day

03D SEMANTIC SEGMENTATION

3LiDAR Point Cloud

9 semantic classes · 230K–774K pts/scene · Camera fusion validation

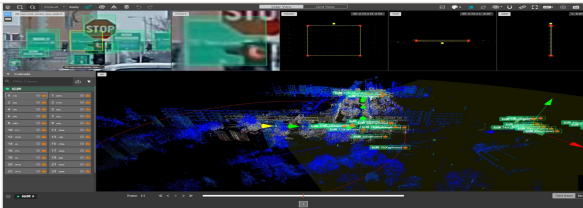

15+ data/day

04D LIDAR CUBOID

4Object Detection & Tracking

3D bounding box + keyframe tracking · 24+ instances · FRONT/TOP/SIDE views

300+ box/day

Traffic Sign Detection

20

Data / task

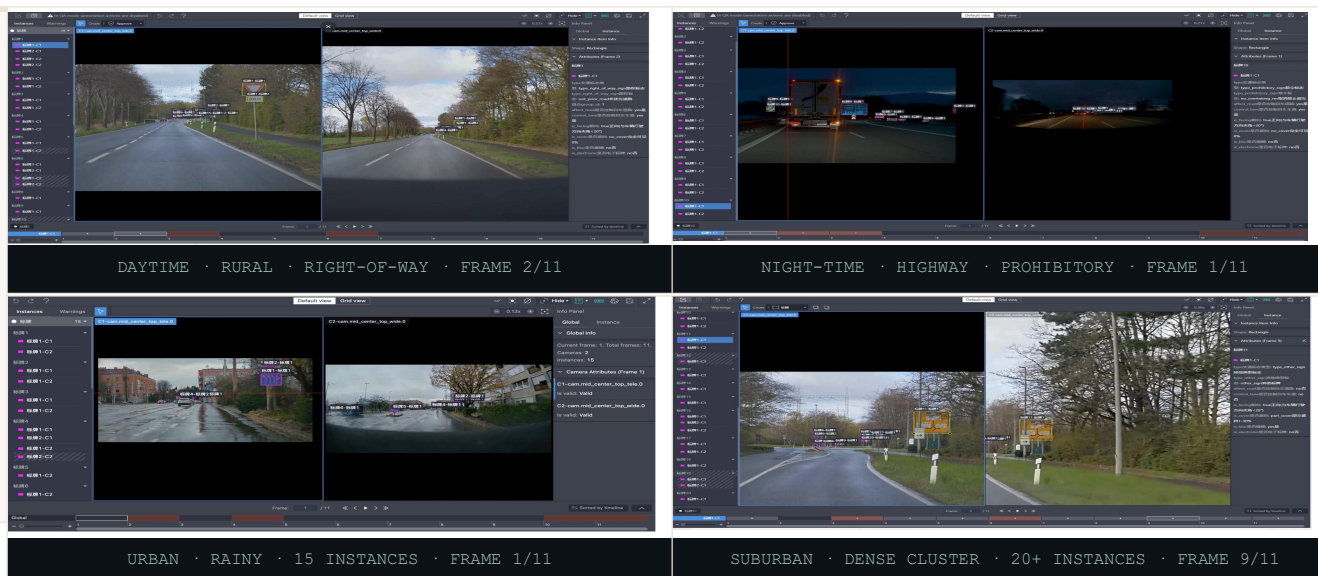

40 tasks/day · 1 task = 10 data · 400+ data
points/day

ANNOTATION DETAILS

- › 2D boxes on tele & wide camera feeds simultaneously
- › Multi-instance tracking across 11 video frames
- › Sign types: right-of-way, prohibitory, other
- › Attributes: cover %, blur, electronic, facing
- › Lane & road control tagging per instance
- › QA mode review to validate completed batches

SCENE CONDITIONS

- › Daytime rural road — clear weather
- › Night-time highway — low light conditions
- › Urban intersection — rainy, wet road
- › Suburban road — partial sign occlusion
- › Dense sign clusters at junctions

* Actual annotation work. Sensitive data omitted per confidentiality agreement.

LiDAR Point Cloud Labeling

40 tasks/day · 1 task = 10 data · 400+ data
points/day · 774K pts max/scene

15

Data / task

774K

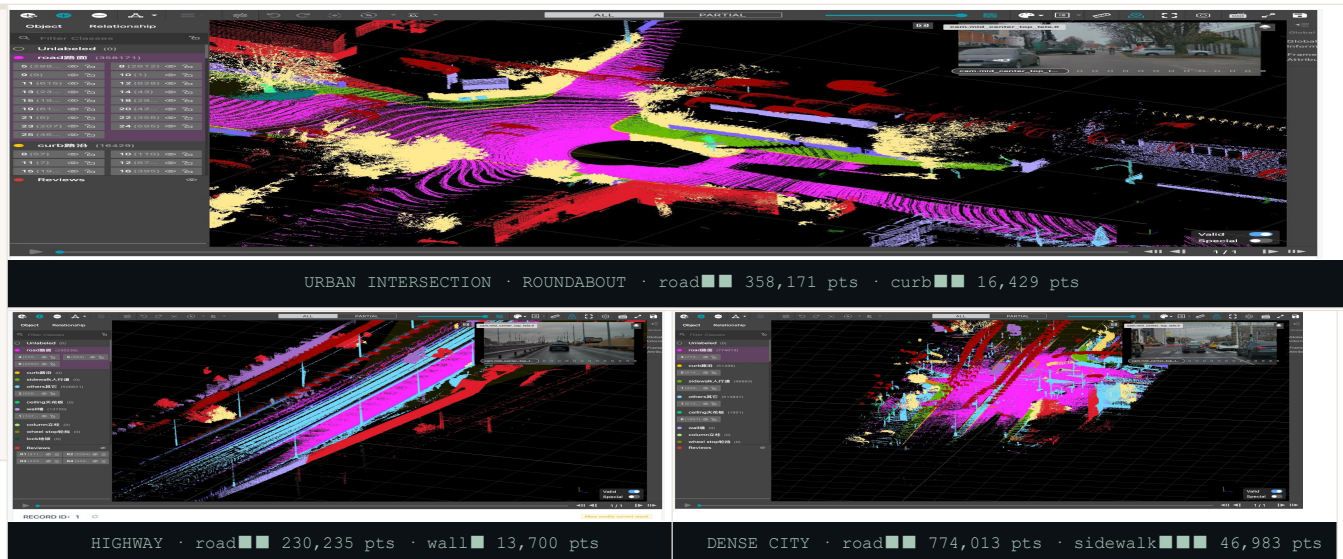

Max pts / scene

COLOR LEGEND — SEMANTIC CLASSES

TECHNICAL HIGHLIGHTS

- › Multi-instance segmentation per class
- › Cross-validation with tele camera reference
- › ALL / PARTIAL scene handling
- › Review flagging: R1–R4 markers
- › Valid / Special scene attribute tagging

* Actual annotation work. Sensitive data omitted per confidentiality agreement.

3D Object Detection & Tracking

40 tasks/day · 1 task = 10 data · 400+ data
points/day · 24+ objects/scene

300

Box / task

24+

Objects / scene

CUBOID DIMS (EXAMPLE)

W: 2.72 m

H: 2.55 m

L: 0.07 m

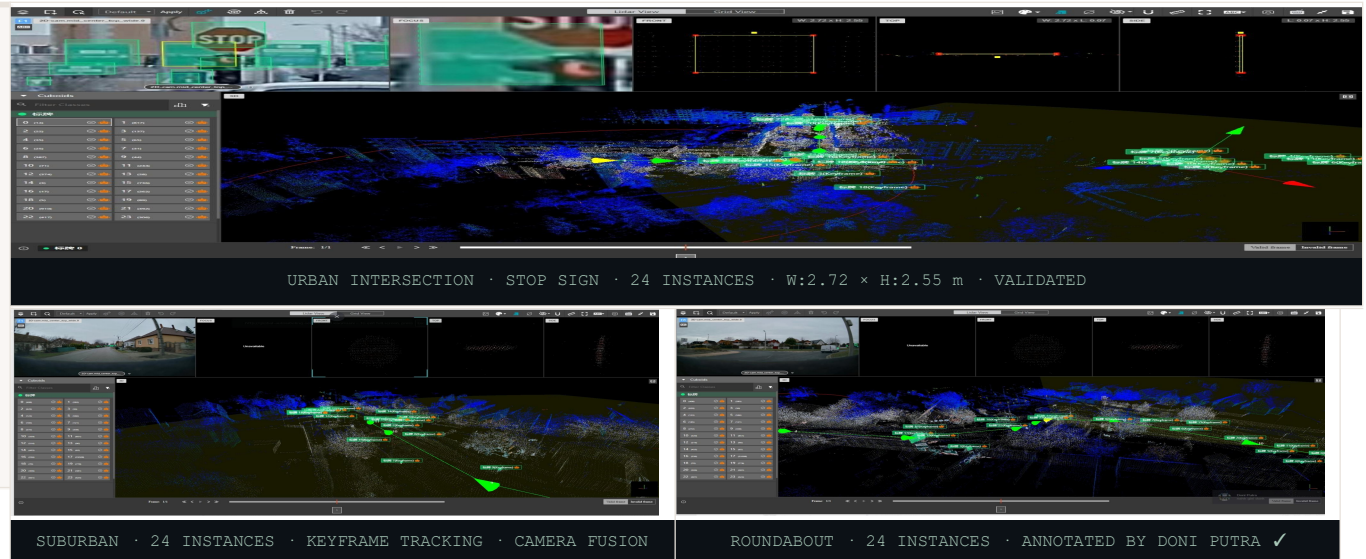

- Traffic
Sign · FRONT/TOP/SIDE

ANNOTATION WORKFLOW

- › Draw 3D cuboid around each object in LiDAR view
- › Validate box dimensions via FRONT / TOP / SIDE views
- › Cross-check with 2D wide-angle camera reference
- › Set keyframes for temporal object tracking
- › Tag instances: Valid frame / Invalid frame
- › Handle 24+ instances per scene simultaneously

TECHNICAL SETUP

- › Multi-panel: 3D · FRONT · TOP · SIDE views
- › Live W × H × L dimension display (meters)
- › Keyframe-based temporal tracking per object
- › Camera fusion: wide-angle 2D overlay reference

✓ VERIFIED — Annotator name "Deja Alwi" visible in screenshot (bottom-right). Confirmed actual work sample.

ANNOTATION WORKFLOW	TOOLS & TECHNOLOGIES	ABOUT ME
01 Briefing Review guidelines, clarify edge cases before batch. 02 Task Distribution Allocate 40 tasks/day per annotator by complexity. 03 Annotation Label 2D boxes, 3D semantic, or 4D cuboids. 10 data/task. 04 QA & Validation Review batches, flag errors using R1–R4 system.. 05 Delivery Submit validated data, report KPI & throughput metrics.	ANNOTATION PLATFORM Datasaur Text, image & 2D labeling with guideline management. 3D / 4D ANNOTATION LiDAR View Platform Multi-panel 3D cuboid annotation with ortho views. DATA TYPE LiDAR Point Cloud Semantic segmentation & 3D cuboid bbox annotation. DATA TYPE Image & Video 2D boxes, attribute labeling, multi-frame tracking. PRODUCTIVITY Google Workspace Sheets for throughput, Docs for SOPs, Drive for files. REPORTING Microsoft Office Word & Excel for QA reports and performance logs.	Muhamad Deja Alwi Dzulhian Data Annotation with 4+ Month building precision AI training datasets for autonomous driving. Currently leading the XIAOMI Autonomous Driving project at KUPU ID — managing 2D, 3D & 4D annotation pipelines with 15+ data /day output. SPECIALIZATIONS > 2D Bounding Box Annotation > 3D Semantic Segmentation (LiDAR) > 4D Cuboid Object Detection EDUCATION Gunadarma Univ · System Information CONTACT dezadzulhian@gmail.com 2020–2024 · GPA 3.42/4.00 · +62 813-8505-9171
